A New Year of Learning!

If your resolution is to improve your career or enhance your life, then Western Suffolk BOCES/Wilson Tech is the place to start. Choose from our full-time career programs or our part-time courses in a host of different subject areas. Our expert instructors are happy to share their real-world experience and knowledge in our classrooms and workshops.

See all that BOCES/Wilson Tech has to offer and call or register today! We look forward to seeing you at one of our campuses soon.

Sincerely,

Michael Flynn

Chief Operating Officer

4 EASY WAYS TO REGISTER!

Registration ends one week before your class begins. Register early, classes fill quickly! Classes are filled on a "first come, first served basis." As classes fill, every effort is made to schedule additional classes to serve your needs. Full tuition must be received before you can enroll in a class. BOCES reserves the right to change locations, times or dates where necessary, or to cancel classes. Make your check or money order payable to: Western Suffolk BOCES. Unless notified otherwise, you can safely assume your registration is confirmed.

ONLINE — EASIEST!

Follow the instructions at
www.wilsontech.org/express
Registration accepted via a secure server.

BY PURCHASE ORDER
Organizations enrolling staff for training can be invoiced if a PO number is provided.

BY PHONE 631-667-6000 x320

With Visa, MasterCard or Discover Card.
Have all of your information before calling.

IN-PERSON REGISTRATION

At Dix Hills campus only.
Check, money order or credit card.

ADVANCED HAIR CUTTING

Designed for licensed cosmetologists or students enrolled in a cosmetology licensing class who have taken haircutting already. This course offers advanced instruction in precision cutting, proper tool selection, the pivot point in haircutting, mastering short cuts using the razor, movement and styling of ethnic hair and how to use vertical, horizontal and diagonal lines to achieve the desired result. Students must have two mannequin heads 12" in length or longer which may be purchased the first night of class for \$30 each.

18SCOS102A \$199 TU/WED March 6, 7, 13, 14
NPT/COS 6-9 PM 12hrs

POST-MORTEM COSMETOLOGY

Making the deceased look like they did before they passed away will help family and friends with their final good-byes and ease their loss. If you are interested in this profession, or would like advanced training in the art of make-up as a Mortuary Science student, this is the class for you. Trips to local funeral homes may be scheduled. Cosmetology license preferred.

18SAPP104A \$179 W 3/7/2018-4/18/2018
DH-C/Cos 6:30-9:30PM 18hrs 6 sessions

COMPUTERS AND RELATED TECHNOLOGY

START HERE!

All students have their own computer

All classes TU/TH, 6-9 PM

COMPUTER TECHNOLOGY I

User-friendly workshop for first-time computer users. We start with how to turn on your computer and go from there! Discover the wonders of computers in this slow-paced workshop using Windows 7.

18SCOM132A \$155 TU/TH 3/1/2018 - 3/15/2018 DH-C/224 6-9PM 15hrs 5 sessions

COMPUTER TECHNOLOGY II

Class starts with opening a free email account and helps you get comfortable writing, responding and forwarding emails, including sending attachments. Then we'll introduce you to the basics of the internet to help you find the information you want! Prereq: Computer Tech I or equivalent.

18SCOM133A \$155 TU/TH 3/20/2018- 4/17/2018 DH-C/224 6-9PM 15hrs 5 sessions

COMPUTER TECHNOLOGY III

Build upon the skills you gained in the first two levels. Learn more about Windows 7 and gain confidence surfing the internet as the instructor teaches you how to research any topic. If you need guidance before purchasing a computer, your instructor can answer your questions! Prereq: Computer Tech I and II or equivalent.

18SCOM134A \$155 TU/TH 4/24/2018- 5/10/2018 DH-C/224 6-9PM 15hrs 5 sessions

COMPUTER TECHNOLOGY IV

Practice, practice, practice! Now that you've completed Computer Technology I-III, practice all your new skills based on your personal needs. In this self-paced class, practice what you've been taught, ask more in-depth questions and go at your own pace. This workshop is designed to reinforce what you've already learned.

18SCOM152A \$155 TU/TH 5/15/2018-5/29/2018 DH-C/224 6-9PM 15hr 5 sessions

CYBERSECURITY- INTRODUCTION

Explore the definition and basic concepts of cybersecurity and how you can protect your personal data and privacy online and in social media. Learn what cybersecurity is and what it means personally and professionally. Find out how hackers steal personal information using different methods, and how to spot real and fake email. Tips on securing your personal information will be covered as well.

18SCOM154A \$75 TU 3/6/2018-3/20/2018 DH-A/202 6-9PM 9hrs 3 sessions

ACCESS 2013 LEVEL I LED

Learn to create tables, design forms, query a database, and generate reports so you can develop a robust and highly functional database that better manages your data. This course will help you be more productive. **Online, instructor led**

18SLED0122A \$229 M 3/5/2018-4/2/2018 18hrs 5 sessions

EXCEL 2013 LEVEL I

Learn how to work with worksheets and workbooks to analyze data using a variety of features to create, modify and format common business reports such as budgets, inventory reports, invoices, and charts. Textbook additional (www.wilsontech.org/bookstore).

18SCOM135A \$249 W 3/7/2018-4/11/2018 DH-C/10 6:30-10PM 18hrs 5 sessions

EXCEL 2013 LEVEL II

Apply your basic skill set along with some intermediate to advanced functions to manage and edit numerical reports. Work with various functions to perform specific types of calculations, customize charts, add pictures or shapes in a worksheet, customize formatting for specific types of data, and look at various features for managing different types of lists using a table or database format. Textbook additional (www.wilsontech.org/bookstore).

LOOKING TO LEARN SOMETHING NEW ON YOUR OWN TIME AND IN YOUR OWN SPACE?

**\$75/
COURSE**

Visit www.careerlearn.org and browse more than 1,000 interesting, fun, and relevant courses that you can take according to your lifestyle and your schedule.

- Computer applications
- Personal growth
- Management skills
- Cloud computing
- Strategic planning

Develop workforce readiness skills and build a foundation for success in networking-related careers and degree programs. Learn skills to use immediately in your job and

accelerate your ability to pursue advanced technology certifications.

Learn practical CCNA Routing and Switching networking concepts from network applications to protocols and services. The new CCNA Routing

and Switching (CCNA R&S) curriculum is fully aligned with the new CCENT and CCNA R&S certification exams. Students will progress from basic networking to more complex enterprise and theoretical networking models.

CISCO NETWORKING FUNDAMENTALS

For those with no computer or network knowledge, this course will help you gain the necessary understanding of networking technology for entering the Networking Academy. Students will learn such topics as: binary and hexadecimal number systems, number conversion, logic gates, Windows operating system, MS-DOS, computer hardware, networking concepts, networking architecture and topology, cabling, and circuit testing.

18SCIS108A \$409 M/W 3/5/2018-4/18/2018
DH-C/227 6-9:30PM 42hrs 12 sessions

CISCO INTRODUCTION TO NETWORKS - MODULE I

The CCNA Routing and Switching introductory courses introduce the architecture, structure, functions, components, and models of the internet and other computer networks. Build a solid foundation for additional training as you learn the principles and structure of IP addressing and the fundamentals of ethernet concepts, media and operations. By the end of this course, students will be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes. Prerequisite: Basic understanding of computers.

18SCIS109A \$815 M/W 4/23/2018-6/20/2018
DH-C/227 6-10PM 70hrs 17 sessions

CISCO ROUTING AND SWITCHING ESSENTIALS - MODULE II

This course describes the architecture, components, and operations of routers and switches in a small network. Learn how to configure a router and a switch for basic functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with RIPv1, RIPv2, single-area and multi-area OSPF, virtual LANs, and inter-VLAN routing in both IPv4 and IPv6 networks. Prerequisite: Intro to Networks.

18SCIS110A \$815 TU/TH 3/1/2018-5/15/2018
DH-C/227 6-10PM 70hrs 17 sessions

CISCO SCALING NETWORKS - MODULE III HYBRID

This course describes the architecture, components, and operations of routers and switches in a larger and more complex network. Learn how to configure routers and switches for advanced functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with OSPF, EIGRP, STP, and VTP in both IPv4 and IPv6 networks. Develop the knowledge and skills needed to implement DHCP and DNS operations in a network. Prerequisite: Routing and Switching Essentials.

SOCIAL MEDIA

twitter LinkedIn facebook Instagram

Get practical, real-world insights into the power of social media. Come familiarize yourself with proven techniques and strategies.

SOCIAL MEDIA FOR BUSINESS

Learn how you can use Facebook, LinkedIn, and Instagram to grow your business by understanding how to optimize these social media platforms. Find out how social media tools can help you analyze the effectiveness of your strategies and bring you greater business success. We will help you get up-to-date on social media best practices and teach you how to evaluate the tools that social platforms offer so you can select the best fit for you or your business/organization. Classes are 3 hours, 1 session. **Business accounts must be created prior to attending all Social Media for Business classes below.**

Introductory Courses: Gain an overview of the specific platform and how to tailor that social media tool to your existing business strategies and how to use tools for monitoring trends. Learn from real case studies as you gain hands-on experience.

Facebook for Business	18SCOM116A	\$65	3/5	DH-C/224	M 7–10PM
Twitter/ LinkedIn for Business	18SCOM118A	\$65	3/19	DH-C/224	M 7–10PM
Instagram for Business	18SCOM142A	\$65	4/9	DH-C/224	M 7–10PM

Intermediate Courses: Develop your social media presence into a powerful brand building tool and gain a more in-depth understanding of the fundamentals of social media analytics. Classes are 3 hours, 1 session.

Facebook for Business	18SCOM117A	\$65	3/12	DH-C/224	M 7–10PM

DH-C/222 6:30-10PM 42hrs 12 sessions

CABINETMAKING - PART I

Learn how to build a cabinet using the same methods that a professional cabinetmaker uses. Through these techniques, you will participate in building a custom sized base cabinet using "face frame" construction. Design and construction details will be clearly shown through the creation of a 3-D model on the computer and you will create a "cut list" showing the exact dimensions of each part to be cut. Learn to accurately cut plywood parts, "dress" solid wood into boards that are flat, straight, square, and dimensionally accurate and proper use of hand tools and machines, safety procedures and how to

assemble the components into a completed cabinet. Please bring your own tape measure.

18SCON127A \$485 TH 3/1/2018-5/31/2018
DH-D/Carp 6:30-9:30PM 36hrs 12 sessions

CABINETMAKING - PART II

Picking up after Cabinetmaking- Introduction, learn to create a jig and drill holes for adjustable shelving; build shelves and veneer front edges, cabinet doors and drawer fronts, machine doors and cabinets for European hinges; hang doors on face frame cabinets; build drawer boxes; install drawers using full extension slides; prepare surfaces for finishing; introduce finishing options; and begin finishing process of wood conditioning, sealing and staining.

Prerequisite: Cabinetmaking- Introduction or equivalent knowledge of basic cabinetmaking. Please bring eye protection, hearing protection, and a tape measure.

18SCON129A \$325 M 4/16/2018-6/11/2018
DH-D/Carp 6:30-9:30PM 24hrs 8 sessions

CARPENTRY SKILLS - BASIC

If you would like to do basic carpentry projects, this course will give you hands-on experience including using hand and power tools, plus carpentry terminology. We encourage all carpentry enthusiasts to begin with this course. Safety glasses, ear protection and suitable shoes are required.

18SCON102A \$359 TU 3/6/2018-5/29/2018
DH-D/Carp 6:30-9:30PM 30hrs 10 sessions

CERAMIC TILE BASICS

Learn how to successfully tile your foyer floor, shower surround or kitchen backsplash area. Learn the correct substrates for wet or dry wall or floor installations. Cut and drill holes in all types of ceramic and porcelain tiles and become familiar with adhesives and grouts for different applications.

18SCON104A \$215 M 3/5/2018-4/9/2018
DH-D/Carp 6-9PM 15hrs 5 sessions

CONTINUING EDUCATION FOR LICENSED HOME INSPECTORS

Wilson Tech offers Continuing Education Credits for licensed Home Inspectors in the courses listed below. For full course descriptions visit our website at wilsontech.org/adults. Please call 631-667-6000 ext. 320 if you have a group of 10 or more interested in taking a class!

- Home Inspection-Building Science
- Personal Safety During Inspections
- Residential Building Foundations
- Roofs, Penetrations and Supports
- Water, Moisture, Humidity, Grading and Site Drainage
- Wood Frame Residential Decks & Common Causes of Deck Failure

CONSTRUCTION ESTIMATING & PROJECT MANAGEMENT

Acquire the necessary skills to begin working in this field as an estimator or a project manager. Topics include: Critical Path Management (CPM), estimating database development, job costing principles and estimating standards. In addition, learn estimating practices relating to drainage, sanitary, cut and fill, sewer and site work. Prereq: Blueprint reading and a strong basic math background. Textbook additional (www.wilsontech.org/bookstore).

18SCON105A \$485 TU 3/6/2018-6/12/2018
DH-E/AdvArt 6:30-9:30PM 36hrs 12 sessions

HOME REMODELING

Learn basic residential construction and remodeling with emphasis on wall construction, framing, door and window installation, molding installations, sheetrocking and taping, metal framing, stairs, rafters, and roofing.

18SCON114A \$489 W 3/7/2018-5/30/2018
DH-D/Carp 6:30-10PM 42hrs 12 sessions

OSHA 10 HOUR CONSTRUCTION SAFETY TRAINING

Learn OSHA construction standards to perform your daily job functions safely. Topics: introduction to OSHA, electrical safety, scaffold safety, fall protection, stairways and ladders, excavations, hand and power tools. Upon successful completion, students will receive U.S. Dept. of Labor wallet card. Textbook additional (www.wilsontech.org/bookstore).

18SCON115A \$169 W 6/6/2018-6/27/2018

DRAFTING/ AUTOCAD

AUTOCAD - BEGINNER

Hands-on introduction to 2D AutoCAD drawing as well as the 3D capabilities of the architectural desktop add-on. Learn the beginning skills and commands to use AutoCAD, the most popular desktop computer-aided drawing software. AutoCAD may be used in both manufacturing and architectural environments on a professional level. One student to a computer. Optional lab time will be available one hour before each class so students can complete 3D drawings for their class project.

18SCAD101A \$769 TH 3/1/2018-5/31/2018
DH-C/18 6:30-10PM 42hrs 12 sessions

AUTOCAD AND 3D MODELING - INTERMEDIATE

A continuation of Autocad 1 with the addition of 3D modeling. You will learn to create and use a template with customized settings and title blocks to produce complete drawings. You will also learn to create 3D models of your drawings. The ability to use the Autocad commands introduced in Autocad 1 is required to succeed in this class. Optional lab time will be available one hour before class.

ELECTRICAL

ELECTRICAL INSTALLATION I

Learn basic electrical theory, use of hand tools, materials, proper installation of switches, receptacles and lighting fixtures, special purpose receptacles and applications in order to apply for a job as an entry level electrical helper and/or apprentice. This course is structured as a combination lecture/shop class. Most classes will consist of a 30-40 minute lesson followed by hands-on shop work where you will practice the skills and theories taught. Students must purchase hand tools from a list provided by the instructor on the first night of class, approx. \$100. Textbook additional (www.wilsontech.org/bookstore)

18SELE112A \$815 M 3/5/2018-6/25/2018

INDUSTRIAL ELECTRICITY

Start with a review of basic electricity, Ohm's Law, wiring materials, raceways & boxes, switchboards, panelboards, motors, generators, air conditioning & refrigeration, fire pumps, and move into single phase concepts and residential services, branch circuits and feeders, and calculations. Also covered are conductors and overcurrent protection, wiring methods, transformers, special locations and three phase wiring systems. Knowledge of the National Electrical Code will be used in this course. Prerequisite: Electrical Installation I and II, or field experience. Textbook additional (www.wilsontech.org/bookstore).

18SELE105A \$619 TU 3/6/2018-6/5/2018
DH-C/17 6-9PM 33hrs 11 sessions

MOTOR CONTROL - PROGRAMMABLE LOGIC CONTROLLERS (PLC) - ADVANCED

An advanced class for the experienced electrician who has knowledge of motor controls and Windows for PCs. Review timers, counters, assembling a PLC with switches, and lights, use of the programming software on a PC and learning to program a PLC. Ideal training for traffic controllers or maintenance electricians. Prerequisite: Electric Motor Control or relevant trade experience.

AVIATION MAINTENANCE TECHNOLOGY

This FAA-approved program provides the hands-on experience to service, repair and overhaul reciprocating engines, turbine engines, aircraft components, powerplant control systems, instrumentation, and aircraft structure.

To prepare for both the Airframe and Powerplant certification, students must complete five semesters (total of 1,910 hours). Call 631-752-1957 for more information and to tour the facility.

Semesters begin Sept., Jan. and May. The program is offered at our Aviation Facility at Republic Airport in Farmingdale. Transfer credits accepted from other Part 147 approved programs.

Tuition includes oral and practical testing for the Designated Mechanic's Exam (DME). Students must supply standard work shirt or dark tee shirt, work pants and standard work boots to be worn in the hangar. FAA exams (3) extra: \$150 each. Before being admitted into the AMT program, prospective students must take the TABE Survey (test of Adult Basic Education), receive a successful score and meet with administration to determine eligibility into the program.

Prepare Now for the Pre-Entrance Exam!

All applicants to the Diagnostic Medical Sonography, Practical Nursing, and Surgical Technology programs must achieve a satisfactory score on the Pre-Entrance Exam (also known as Test for Academic Skills) and have a high school diploma or equivalent. These three programs have substantial class work and homework that require students to be proficient readers with a wide vocabulary and to be competent math problem solvers. BOCES highly recommends that students take the Prep Class for Pre-Entrance Exams, however, those who have completed a recent academic program with strong grades may consider proceeding directly to the Pre-Entrance Exam. Most students find that the Prep Class for the Pre-Entrance Exam helps them prepare for the rigorous Pre-Entrance Exam, gain self-confidence, and solidify their interest in pursuing the academic work necessary to succeed in these programs.

Note: A successful score on the Pre-Entrance Exam is the first step in applying to these three programs but does not guarantee admission.

Prep Class for Pre-Entrance Exams:

Practical Nursing, Surgical Technology & Diagnostic Medical Sonography

BOCES statistics indicate that the passing rate on the Pre-Entrance Exam is higher for those who complete this Prep Class. To enter these three programs, you must satisfactorily pass the Pre-Entrance Exam. Take this Prep Course to help you prepare for your Pre-Entrance Exam. Work on reading comprehension, basic math skills, English grammar and usage and critical thinking. The pre-entrance exam has a science section, which is required for Sonography applicants. This course incorporates critical thinking skills needed to successfully answer science questions. Science curriculum will not be covered. Textbook additional (www.wilsontech.org/bookstore).

18SPRE101A 6:30-9:30PM \$250 TU/TH 4/17/2018-5/17/2018 NPT/209

Pre-Entrance Exams (TEAS) may be taken once a semester. Exam fee is \$125.

The TEAS Pre-Entrance Exam is composed of the following areas: general math, science, reading comprehension, and English and language usage. If you have any questions about the Pre-Entrance Exam or you have a current IEP and are requesting testing modifications, call 631-261-3600, ext. 245.

While all prospective students take the same Pre-Entrance Exam, register with the course number of the program you hope to enter.

Build Your Foundation for a Career in Health Care

ANATOMY AND PHYSIOLOGY FOR HEALTH CAREERS

The study of the human body and its systems is the first course in any Health Careers program. Careers in nursing, physical therapy, surgical technology, medical assisting, sports rehabilitation and personal training are a few careers that require a solid understanding of the human body. College level Anatomy and Physiology encompasses a vast body of knowledge causing many students to be overwhelmed and easily discouraged. This course offers an introduction to the human body, provides an understanding of body systems and lays the foundation for more detailed anatomy courses. This course is strongly recommended for anyone who is considering applying to a health career program. Textbook additional (www.wilsontech.org/bookstore).

HEALTH CARE/ HEALTH CARE RELATED COURSES

Central Sterile Processing Technician

Looking for a skilled, entry-level position in health care where you will be responsible for a variety of vital services in health facilities? Apply now to become a certified Central Sterile Processing Technician who processes and sterilizes surgical instruments in hospitals, surgical centers and other health facilities. The course will help prepare entry-level technicians and refresh current technicians who want to earn certification from the International Association of Healthcare Central Service Material Management (IAHCSCMM). Scientific principles of processing, sterilization, storage, distribution and inventory control of medical and surgical instruments and equipment for the Operating Room, Emergency Room and other areas of the hospital or healthcare facility will be stressed. This program will cover the primary responsibilities of the technicians and provide the knowledge necessary to be successful in this important field. Study anatomy and physiology, microbiology, infection control, disinfection and sterilization procedures, surgical instrumentation, and packaging and management of patient care supplies and equipment.

The coursework incorporates classroom and laboratory learning activities and resources and will include a 400-hour Clinical Internship to be scheduled upon completion of 250 classroom hours. Upon successful completion of the course, students will be eligible to take the IAHCSCMM certification examination for Certified Central Service Technician. Prerequisites: High School diploma or equivalent, completed physical examination and successful score on TABE Survey test. Additional costs: uniform approximately \$100, certification exam \$105. Textbook additional.

EKG / MONITOR TECHNICIAN

Satisfactory completion of this course will help prepare you to work as an entry level EKG or monitor technician in hospitals, clinics, health related facilities and doctors' offices. Learn to identify normal and pathologic heart rhythms and collect diagnostic quality recordings of the heart's electrical and mechanical activity. You will also learn to monitor a patient's cardiac function in a critical care or emergency room setting. Gain the knowledge and skills to assist doctors and nurses by recognizing and reporting changes in a patient's heart function. The curriculum includes cardiac anatomy and

physiology, 12 lead and rhythm strip analysis lead placement and 12 lead EKG. Rhythm strip practice will enhance learning and clinical skills! You must earn a final grade of 90% to receive a certificate of completion. Testing fee separate. High School Diploma or equivalent is required to sit for the NCCT exam.

Textbook additional, may be purchased at the Northport campus. Students are required to purchase review books and practice exams available by contacting NCCT Customer Service at 1-800-875-4404 or www.ncctinc.com (Approx \$40).

CERTIFICATION
PROGRAM

BECOME A RECOVERY COACH

NOTE: These classes can be taken by CASAC (Credentialed Alcohol and Substance Abuse Counselor) and CPS (Credentialed Prevention Specialist), & for re-credentialing and continuing education credits.

Prepare to work in the addiction and mental health field as a Recovery Coach who helps people along the path of recovery—either before, during, after or instead of treatment. Work in your own practice or in facilities such as community outreach centers, detox facilities, residential centers and hospitals. Recovery Coaches do not provide clinical help or dispense medication; instead they work with the recoveree, either as a solo coach or as part of a team. Learn to help patients engage with treatment and help them develop the various skills needed for recovery.

This class fulfills the 60 hour educational requirements set forth by NYS and the Office of Alcoholism and Substance Abuse Services (OASAS) to become a NYS-certified Addiction Recovery Coach or Recovery Peer Advocate. Class includes extensive preparation for the certification exam. Instructor will provide information pertaining to exam testing locations and the application process. Class has four modules:

MODULE I-RECOVERY COACH ACADEMY (30HRS)

MODULE II-NYS ETHICS (12HRS)

MODULE III-MEDICALLY ASSISTED TREATMENT* (6HRS)

MODULE IV-SPIRITUALITY (12HRS)

*Module includes NARCAN training.

Upon successful completion of each module you will receive a Healthspan.US certificate as well as information to receive your CCAR Certificate (Connecticut Community for Addiction Recovery) which you will need to file your NYS application.

Curriculum includes the role of recovery coaches in the recovery process, core values and guiding principles of recovery, the many dimensions of recovery and recovery coaching, the stages of recovery, wellness planning, ethics and guidelines for making ethical decisions, as well as spirituality and what this means to each individual as it pertains to recovery. The course covers the history, concepts and varieties of Medically Assisted Treatment (MAT) that may be used during recovery pathways that include a medication component. No prerequisites. 100% attendance required without prior approval from the instructor. There will be a \$13/hr make-up fee for any approved hours missed.

ADDITIONAL FEES FOR:

- Bring money order only made out to HealthSpan.US
Manuals and materials (\$139 due on first night of class)
- Application fee for NYS Certification:
 - * Certified Addiction Recovery Coach (CARC) \$100
 - * Certified Recovery Peer Advocate (CRPA) \$175 (includes NYS testing fee)
- NYS Recovery Coach Certification Exam (\$125 will be paid to NYS when application is submitted)

wilsontech.org

MARINE TECHNICAL SPECIALIST

Learn the skills you need to work in the recreational boating industry as a qualified marine technician who can service boats, boat engines and related systems as well as boat yard operations. Wilson Tech's program addresses the rapid advances in marine propulsion technology that now demand a high level of competency and training. Those earning certificates from Wilson Tech will be well-prepared for employment opportunities in boat yards, marinas, and engine repair facilities. Class meets one night/week for theory and one night/week for laboratory work. No classes during school holidays.

FALL
2018

The six modules in this course can be completed in nine months. Graduates can obtain valuable industry-recognized certificates that attest to their skills. The program will also help prepare you to take engine certification tests from Yamaha, Evinrude and/or Mercury. To enhance employment opportunities, successful graduates of the program will be well-positioned to seek additional certifications from the American Boat & Yacht Council or the National Marine Electronics Association. The instructor will provide information about the additional preparation required for these certifications.

A basic set of hand tools (likely found in most households) as well as multi-meter and basic diagnostic tools are the student's responsibility, approx. \$2,500 for those with no toolbox. Tools can be purchased as needed based on supply list per module at www.wilsontech/marine.

19FMTS200A \$2339 Fall 2018 NPT/Rm 119 TU/TH 6-9:30pm 231hrs 66 sessions

BASIC MARINA OPERATIONS - MODULE I

You'll be taught the proper blocking, storing and trailing of boats. Students will practice with powered industrial trucks at a local marina to learn how to move pallets using a forklift, to pick up boats with a boat handling forklift and to prepare to move very large boats with a travel or strap lift. Students who successfully complete this module will earn their Apprentice Boat Bottom Painting and Powered Industrial Truck certificates as well as OSHA Powered Truck Safety certification, all in-demand credentials for employment in the marine industry. Learn excellent customer service skills and how to be a service writer as you gain an overview of the marina as a business. (21hrs)

ENGINE TECHNOLOGY - MODULE II

This module covers the theory of two and four-stroke internal combustion engines for both outboard and inboard engines with modern computer engine controls. Cooling systems and variable valve timing systems will also be covered. (42hrs)

MARINE WIRING & INSTALLATIONS - MODULE III

Learn DC theory, wiring practices, and battery systems. Emphasis is on troubleshooting basic DC circuits. Learn to use ABYC (American Boat and Yacht Council) and NMEA (National Marine

Electronic Association) standards. Gain an understanding of proper installation of electronics for navigation and communication systems. (42hrs)

FUEL AND IGNITION SYSTEMS - MODULE IV

Learn carburetor theory, fuel and fuel delivery technology, fuel pumps, lubrication, boat fuel systems, safety standards and recommended practices. Gain in-depth information on how modern ignitions systems work. Learn current electronic ignition theory and troubleshooting using state-of-the-art test equipment. (42hrs)

ELECTRONIC FUEL INJECTION - MODULE V

Gain a thorough understanding of computerized electronic and direct injection engine operating systems. Heavy emphasis will be placed on hands-on computer diagnostics. (42hrs)

DRIVE SYSTEMS - MODULE VI

Study all drive systems in the industry today. This module covers outboard lower units, stern drive, and inboard transmissions diagnosis and rebuilding including shimming procedures. (42hrs)

BOATYARD OPERATIONS/ INTERNSHIP

Internships may be available for eligible students.

MUSIC

ACOUSTIC GUITAR WORKSHOP

NEW Looking for a relaxed environment to continue learning while you play? Hone your guitar skills with other like-minded people in a highly supportive workshop atmosphere. This class will focus on standard guitar repertoire, improvisation, reading, basic music theory and performing with others. All levels welcome!

ART OF FINGERSTYLE GUITAR

Aspiring fingerstyle guitarists will gain a foundation to learn basic classical exercises for developing dexterity in the right hand. Students will be taught simple classical pieces using tablature or standard note reading. Includes folk and acoustic styles such as Travis picking and standard fingerstyle repertoire from rock and country genres. Geared to beginner and intermediate students.

18SMUS111A \$139 TU 3/6/2018-5/15/2018
DH-C/26 8-10PM 16hrs 8 sessions

GUITAR I - BEGINNER

The beginner will be introduced to the fundamentals of music, guitar music and tablature. Learn by practicing finger exercises and reading notes. Covers the most common "open" major chords and their progression. Study fingering techniques and strumming patterns. Learn how guitars are constructed by how to change and tune strings. First class includes skill and instrument assessment and may end early. Textbook additional (www.wilsontech.org/bookstore). Optional practice time 1/2 hour before class.

18SMUS101A \$179 M 3/5/2018-5/21/2018
DH-C/LCR 5:30-7:30PM 20hrs 11 sessions

Guitar II - Intermediate

NEW Build on the skills gained in Guitar I and learn simple songs too. Continue to focus on tuning and proper technique while building on single note playing, learning more open chords from the major/minor key of C, playing chord progressions and simple strumming. First class includes skill and instrument assessment and may end early. Textbook additional. (www.wilsontech.org/bookstore). Optional practice time 1/2 hour before class.

18SMUS102A \$179 M 3/5/2018-5/14/2018
DH-C/LCR 7:30-9:30PM 20hrs 10 sessions

SINGING FOR NON-SINGERS

People who love to sing but have had little or no vocal training will have fun in this class! Learn to express yourself with your voice as you start to develop the basics of vocal technique and practice singing from the diaphragm. Learn breath control, articulation, pitch, basic ear training and phrasing. Focus on using your voice as an expressive instrument through learning repertoire, performing for the class and singing harmony. Please bring sheet music with you for one or two songs of your choice.

18SMUS208A \$125 TU 3/6/2018-4/24/2018

18SMUS208B \$125 TU 5/8/2018-6/12/2018
DH-C/26 6-8PM 12hrs 6 sessions

Guitar IV (Fret-Board Harmony)

Build on skills and training of Guitar I to III. Focus on ear development, harmonic and compensation tuning, understanding and exploring scales and chords through the fret-board analysis of the major and minor scale formulas, chord construction/function, major and minor musical keys and chord progressions. Continue with more vocal development to improve singing while playing melody. Expand song repertoire with vocal accompaniment. Instrument as well as guitar skills will be assessed. Optional practice time 1/2 hour before class.

18SMUS118A \$179 TU 3/6/2018-5/29/2018
DH-C/LCR 5:30-7:30PM 20hrs 10 sessions

LEAD GUITAR WORKSHOP

Learn to improvise and work with the pentatonic scales, blues scales, chromatic scales, major and minor modes and arpeggios. Opportunities to learn one-on-one and jam. Beginners welcome but some knowledge of basic guitar helpful. No prior knowledge of improvisation necessary. Open to both electric and acoustic players. Electric players are required to bring their own small practice amp to class.

18SMUS120A \$139 TH 3/1/2018-5/3/2018
DH-C/27 6-8PM 16 hrs 8 sessions

RHYTHM GUITAR WORKSHOP

This class is devoted to the skill of strumming the guitar with finesse and authority. Learn the techniques that accomplished guitar players use when they accompany a vocalist or play with a band. Focus on learning how to subdivide the beat, arpeggiate and play with impeccable timing and feel. Beginners are welcome but some knowledge of basic chords and barre chords would help you get the most out of this class.

MASTER PLUMBERS PRACTICAL TEST PREP & LEAD WIPING

Prepare for the Master Plumber's License Practical Test. Successful completion of the Practical Test is necessary to qualify for Master Plumber's License Certification in all Suffolk and Nassau locations. Class will focus on the requirements for the two types of tests now used. Depending on the township where the test is to be taken, students will focus on either the lead wiping portion of the test or fabrication of a lead shower pan and pipe fitting project. Students must purchase tools and materials (approx. \$800 for lead wiping or \$400 for lead pan/pipe project) listed at (www.wilsontech.org/supplies). All tools and materials used in class will be needed for licensing tests. May be taken in conjunction with Plumbing I or II. Prereq: Prior experience in the plumbing trade. Note: to sit for the licensing exam, you must have five years' plumbing trade experience.

18SWEL207D	Pipe Test-6G (60/10)	\$390

4 EASY WAYS TO REGISTER!

Registration ends one week before your class begins. Register early, classes fill quickly! Classes are filled on a "first come, first served basis." As classes fill, every effort is made to schedule additional classes to serve your needs. Full tuition must be received before you can enroll in a class. BOCES reserves the right to change locations, times or dates where necessary, or to cancel classes. Make you check or money order payable to: Western Suffolk BOCES.

Unless notified otherwise, you can safely assume your registration is confirmed.

ONLINE — EASIEST!

Follow the instructions at
www.wilsontech.org/express
Registration accepted via a secure server.

BY PHONE 631-667-6000 x320

With Visa, MasterCard or Discover Card.
Have all of your information before calling.

IN-PERSON REGISTRATION

At Dix Hills campus only. Check, money order or credit card.

**BY PURCHASE ORDER**

Organizations enrolling staff for training can be invoiced if a PO number is provided.

Western Suffolk BOCES Policies

Parking

All vehicles **MUST** park in designated parking areas. **NO** cars may be parked in designated fire zones, reserved parking or on the grass.

Damage to or Loss of Personal Property

Western Suffolk BOCES assumes no responsibility, either real or implied, for the personal property of any adult student. Students should review their own insurance coverage regarding personal property liability.

Refund Policy for Part-time Programs

1. If we cancel a course, all your fees are totally refunded.

2. If you cannot attend a class that has been rescheduled to a time or place other than advertised, you are entitled to a full refund.

3. If you withdraw from a class before the first scheduled class meeting, a full tuition refund, less a withdrawal fee of \$25, will be made after the withdrawal* is requested in writing.

4. If you withdraw after the first scheduled class meeting but before the second class meeting, one-half of the tuition, less a withdrawal fee of \$25, will be refunded after withdrawal* is requested in writing. **NOTE:** No refunds for any dance or fitness class after the first class begins.

5. All extra costs, such as books or equipment that were not included in tuition price, are not subject to refund.

6. We are unable to provide refunds for requests received after the second scheduled class meeting. Waivers may be granted only under extenuating circumstances which must be detailed in writing within five days of your last day of attendance. If a waiver is granted, it must be used within one calendar year. Decisions to grant waivers are the prerogative of the BOCES administrator whose decision is final.

7. Any overpayment accepted will be totally refunded.

8. There is a \$25 fee for all returned checks.

9. Payments made with a credit card will receive refund credit on their credit card, however, any refund made after 120 days will be issued by BOCES check regardless of how tuition was paid.

NOTE: Every effort is made to provide you a timely refund. Processing of refunds may take 45 days after your first scheduled day of class.

Our programs are supported entirely by student tuitions. No discounts can be provided.

*The date of withdrawal is the date/time your request is received at BOCES.

Refund Policy for Full-time Programs

See the individual program handbooks.

Issues Under Dispute

BOCES has an appeal and grievance policy at www.wilsontech.org/dispute.

Smoking Policy

Smoking is **NOT** permitted anywhere on campus.

Western Suffolk BOCES Non-Discrimination Notice

The Board of Cooperative Educational Services of Western Suffolk County, New York does not discriminate on the basis of age, religion, creed, ethnic origin, national origin, marital status, race, color, gender, sexual orientation, veteran status, weight, disability or handicap in the educational programs or activities it operates and provides equal access to the Boy Scouts and other designated youth groups. This policy of non-discrimination includes the recruitment, hiring and advancement of employees; salaries, pay and other benefits; counseling services to students; student access to course offerings; lawful political activities; educational programs and other activities; and the business activities of the Board. Frequently asked questions

What if I do not have a high school diploma?

A high school diploma is not required for most of our evening classes. Western Suffolk BOCES also offers a variety of no-cost ways to complete your high school education. To work toward your High School Equivalency Diploma (TASC) or EDP, see page 38 or call our Career Center at 631-667-6000, x327.

How can I get to Wilson Tech?

Wilson Tech campuses are centrally located and easily accessible by major roadways or public transportation. Maps are on our website, www.wilsontech.org/sites.

Public transportation options to Wilson Tech/ Dix Hills campus on weekdays, 8AM–3PM:

- From S. Huntington & Dix Hills: S29 to Rt. 231 at Lake Ave. Connect with free BOCES shuttle.
- From Huntington/Huntington Sta.: S1, H9A or H9B to Walt Whitman Mall. Connect with free BOCES shuttle.
- From Northport & Greenlawn: H4S to Walt Whitman Mall. Connect with free BOCES shuttle.
- From Dix Hills & Wheatley Heights: S23 to Wyandanch train station. Connect with free BOCES shuttle.
- From Amityville, Copiague, & Lindenhurst: S33 to Wyandanch train station. Connect with free BOCES shuttle.

For more information about bus routes, times and shuttle locations, visit or call the Career Center at Wilson Tech, 631-667-6000, x327.

Can I receive tax incentives for BOCES courses?

The Taxpayer Relief Act of 1997 created the Lifetime Learning Credit, which is a tax incentive to help you offset the cost of your continuing education course work. A family can claim on their tax return a credit equal to 20% of \$5,000 of educational expenses, so the maximum benefit is \$1,000 for each tax year. For further information, contact your tax advisor.

Are there any additional costs?

In some instances students are required to purchase textbooks, personal protective equipment or personal tools. The course descriptions in this catalog will indicate any additional costs or requirements.

Will I receive a certificate?

Yes, you will! Certificates of completion are issued at the last class at no cost to all career & technical education students who have successfully completed a course. To be eligible for a certificate, you must attend 80% of the class sessions (unless otherwise stipulated), and complete all other course requirements with a grade of 80% or above and have paid your tuition in full. Some programs have course-specific attendance requirements.

How do I order a transcript?

There is a \$5 fee for duplicate copies of certificates and transcripts. To order, go to www.wilsontech.org/transcript.

Do Tech courses qualify for veteran's benefits?

Yes, veterans may qualify for complimentary GI Bill® training at Wilson Technological Center through the U.S. Department of Veteran Affairs. For part-time programs contact your local Veterans' representative or call 631-667-6000, x353 to speak with our veterans' advisor. For full-time programs call 631-261-3600, x275. More information about VA education benefits at www.benefits.va.gov/gibill

What if I have a special need?

Many of our programs are appropriate for adults with special needs. Contact the Career Center at 631-667-6000, x152 prior to your first day of class so that our staff can make an effort to assist you with any necessary arrangements. All our facilities are wheelchair accessible.

Does Tech offer gift certificates?

We will gladly issue a gift certificate in any denomination to the person of your choice. To order, send a check or money order in the amount desired to: Office of Continuing Education, Western Suffolk BOCES, 17 Westminster Ave., Dix Hills, NY 11746

Federal Financial Aid

<https://fafsa.ed.gov/School Code: 010147>

Federal Financial Aid

Available to those who qualify in these programs only:

- Aviation Maintenance Technology
- Automotive Technology
- Esthetics
- Cosmetology
- Diagnostic Medical Sonography
- Practical Nursing
- Surgical Technology

Eligibility Requirements

To receive federal financial aid, you must:

- Be a US citizen or eligible non-citizen
- Be enrolled as a regular student in an eligible program (listed above) at BOCES
- Be a high school graduate, or have a recognized GED/TASC
- For grants, be a student who has not yet earned a bachelor's degree

- Not be in default on previous student loans or owe a refund on previous grants
- Make satisfactory academic progress as defined by BOCES
- Be registered for Selective Service if male and 18 years or older

Determining Financial Need

Generally, financial aid is awarded on the basis of financial need. Complete the FASFA, a Free Application for Federal Student Aid at <https://fafsa.ed.gov>. The government looks at your income, dependents and assets and calculates how much you and your family can be expected to contribute towards education. Financial need is the cost of education less the amount you can contribute.

The FAFSA determines eligibility for Federal Pell Grants and Federal Student Loans.
