SPRING 2019
Spring Into Something New!

Take advantage of the warmer weather and longer days by enrolling in one of our adult education courses. Western Suffolk BOCES/Wilson Tech has an interesting variety of courses for nearly every interest and skill level. Our instructors bring their professional experience into our fully-equipped classrooms, which is why so many of our students come back again and again.

Explore all the options available this spring at Wilson Tech. We hope to see you in one of our classrooms or workshops soon!

Sincerely,
Michael Flynn
Chief Operating Officer

MOST CLASSES BEGIN THE WEEK OF MARCH 4

Frequently Asked Questions ............................... 39
**EYELASH EXTENSION CERTIFICATION TRAINING**
Learn about use of proper materials for eyelash extension application, maintaining health and safety, extension and shaping techniques, fill-ins and lash removal. Theory and hands-on practice lead to certification. Licensed cosmetologists, estheticians, nail technicians, medical professionals and beauty school students are welcome. Kits and mannequin heads must be purchased prior to first class (wilsontech.org/bookstore).

**MICRODERMABRASION CERTIFICATION**
In this course, licensed estheticians, cosmetologists and spa professionals will learn how to safely perform microdermabrasion using both the crystal and diamond tip methods, histology of the skin, bacteriology, consultation, pre and post care, sanitation and safety, disposal of waste products, contraindications, benefits and cautions, practical application and observation, and how to market microdermabrasion in your professional practice.

**INTRODUCTION TO WAXING**
In this 75-hour, NYS-approved waxing program, you will learn the techniques of safe and professional hair removal and prepare for licensing by the NYS Department of State. Curriculum includes professional requirements, health and safety and removal of superfluous hair. Students must pass a NYS exam to receive a license. Applicants must have a US high school diploma or equivalent.

**LASER HAIR REMOVAL TRAINING**
Course offers comprehensive curriculum of laser physics theory and hands-on laser hair removal training. Includes clinical application and practice methods using laser machines for skin rejuvenation, skin tightening and treatment of pigmented skin lesions. Instruction by a Registered Nurse at Wilson Tech Northport and L'Elite Medispa in Huntington Station. Designed for esthetician or health care professional.

**MICRONEEDLING CERTIFICATION FOR LICENSED ESTHETICIANS, RN, LPN, PA, MD**
Licensed professionals will learn how to safely perform microneedling, how microneedling affects the skin physiology, safety and infection control practices, contraindications, benefits and cautions, protocols for the face, body and home care regimens, and marketing microneedling services in your professional practices.

**4 easy ways to register!**
Registration ends one week before your class begins. Register early, classes fill quickly! Classes are filled on a “first come, first served basis.” As classes fill, every effort is made to schedule additional classes to serve your needs. Full tuition must be received before you can enroll in a class. BOCES reserves the right to change locations, times or dates where necessary, or to cancel classes. Make your check or money order payble to: Western Suffolk BOCES. Unless notified otherwise, you can safely assume your registration is confirmed.

### Online – Easiest!
Follow the instructions at [www.wilsontech.org/express](http://www.wilsontech.org/express)
Registration accepted via a secure server.

### By Phone
*631-667-6000 x320*
With Visa, MasterCard or Discover Card. Have all of your information before calling.

### By Purchase Order
Organizations enrolling staff for training can be invoiced if a PD number is provided.

### In-Person Registration
At Dix Hills campus only. Check, money order or credit card.
HAIR EXTENSIONS CERTIFICATION: COLDHAIR
For licensed cosmetologists, SO.CAP.USA will demonstrate a new procedure for hair extensions; COLDHAIR. The 3-hour certification class will teach students the COLDHAIR application of hair extensions. Students can purchase the COLDHAIR Kit which includes: 1-Gripper, 2-Swans Adaptable Rings, 1-Essential Bio Remover, 1-Bio 1 Purifier Shampoo 500 ml, 1-Bio 6 Nourishing Shampoo 250 ml, 1-Bio 7 Regenerating Mask 250 ml, 1-Color Ring plus 100 pieces of beautiful 100% Human Remy Hair, mannequin head and paddle brush for only $595 at wilsontech.org/bookstore. Kits must be purchased prior to first day of class and distributed at the start of class. Students will be able to practice using their new tool kits. No heat, no machines, no mistakes!

Business & Industry Training
Wilson Tech professionals can provide your business with onsite employee training in computer applications, customer service or health & safety.

Call today for a consultation!
631-667-6000, x320

The Training Source is the corporate training department of Wilson Technological Center and Western Suffolk BOCES.
Develop workforce readiness skills and build a foundation for success in networking-related careers and degree programs. Learn skills to use immediately in your job and accelerate your ability to pursue advanced technology certifications.

Learn practical CCNA Routing and Switching networking concepts from network applications to protocols and services. The new CCNA Routing and Switching (CCNA R&S) curriculum is fully aligned with the new CCENT and CCNA R&S certification exams. Students will progress from basic networking to more complex enterprise and theoretical networking models.

**CISCO NETWORKING FUNDAMENTALS**

For those with no computer or network knowledge, this course will help you gain the necessary understanding of networking technology for entering the Networking Academy. Students will learn such topics as: binary and hexadecimal number systems, number conversion, logic gates, Windows operating system, MS-DOS, computer hardware, networking concepts, networking architecture and topology, cabling, and circuit testing.

DH-C/227  6-9:30PM  42hrs  12 sessions

**CISCO INTRODUCTION TO NETWORKS - MODULE I**

The CCNA Routing and Switching introductory courses introduce the architecture, structure, functions, components, and models of the internet and other computer networks. Build a solid foundation for additional training as you learn the principles and structure of IP addressing and the fundamentals of ethernet concepts, media and operations. By the end of this course, students will be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes. Prerequisite: Basic understanding of computers. 48 hours in-house/ 22 hours online.

19SCIS109A  $815  M/W 4/15/2019-6/19/2019  
DH-C/227  6-10PM  70hrs  17 sessions

**CISCO SCALING NETWORKS - MODULE III**

This course describes the architecture, components, and operations of routers and switches in a larger and more complex network. Learn how to configure routers and switches for advanced functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with OSPF, EIGRP, STP, and VTP in both IPv4 and IPv6 networks. Develop the knowledge and skills needed to implement DHCP and DNS operations in a network. Prerequisite: Routing and Switching Essentials.

DH-C/227  6-10PM  70hrs  17 sessions

**CISCO CONNECTING NETWORKS - MODULE IV - HYBRID**

This course discusses the WAN technologies and network services required by converged applications in a complex network. Gain an understanding of the selection criteria for network devices and WAN technologies to meet network requirements. Learn to configure and troubleshoot network devices and resolve common issues with data link protocols. Develop the knowledge and skills needed to implement IPSec and virtual private network (VPN) operations.

DH-C/227  6-10PM  70hrs  17 sessions (11 in-class; 6 online)

**WEB DESIGN**

CREATE YOUR WEBSITE WITH WORDPRESS

Whether it is for business or pleasure, having a site is a great way to spread your message. Have your voice heard and learn Wordpress from the ground up. Learn the basic of the Wordpress Dashboard. Manage your content through Posts, Pages, and Links. Customize your site with one of the many themes that Wordpress has to offer. Include media such as images and videos, and sound clips. Create a forum for comments and discussions. Starting your personal website has never been easier!

SOCIAL MEDIA

Get practical, real-world insights into the power of social media. Come familiarize yourself with proven techniques and strategies.

SOCIAL MEDIA FOR BUSINESS

Learn how you can use Facebook, LinkedIn, and Instagram to grow your business by understanding how to optimize these social media platforms. Find out how social media tools can help you analyze the effectiveness of your strategies and bring you greater business success. We will help you get up-to-date on social media best practices and teach you how to evaluate the tools that social platforms offer so you can select the best fit for you or your business/organization. Classes are 3 hours, 1 session. Business accounts must be created prior to attending all Social Media for Business classes below.

Introductory Courses: Gain an overview of the specific platform and how to tailor that social media tool to your existing business strategies and how to use tools for monitoring trends. Learn from real case studies as you gain hands-on experience.

- **Facebook for Business** 19SCOM116A $65 3/4 DH-C/224 M 7–10PM
- **Twitter/LinkedIn for Business** 19SCOM118A $65 3/18 DH-C/224 M 7–10PM
- **Instagram for Business** 19SCOM142A $65 4/1 DH-C/224 M 7–10PM

Intermediate Courses: Develop your social media presence into a powerful brand building tool and gain a more in-depth understanding of the fundamentals of social media analytics. Classes are 3 hours, 1 session.

- **Facebook for Business** 19SCOM117A $65 3/11 DH-C/224 M 7–10PM
- **Twitter/LinkedIn for Business** 19SCOM119A $65 3/25 DH-C/224 M 7–10PM
- **Instagram for Business** 19SCOM143A $65 4/8 DH-C/224 M 7–10PM

SOCIAL MEDIA FOR PERSONAL USE

Create a profile on social media and learn how to connect with people you know as well as people you would like to know. We will help you get up-to-date on social media, settings, privacy, and how to set up your personal page.

Introductory Courses: Gain an overview of the specific site and how to set it up for your personal use. Class is hands-on so come ready to set-up your account or work on your existing page. Classes are 3 hours, 1 session.

- **Facebook** 19SCOM144A $65 3/6 DH-C/224 W 7–10PM

- **Twitter** 19SCOM151A $65 4/10 DH-C/224 W 7–10PM

Check out our full-time courses (p. 19-24)
BLUEPRINT READING
Learn to read and interpret construction drawings for all the major building trades. Course emphasizes commercial construction and includes discussions on scale, dimensioning, topography, types of two and three dimensional drawings, construction materials, cost estimating and building science basics. Lessons discuss construction drawing organization and the differences between site, architectural, structural, mechanical and electrical drawings as they relate to the complete building. Textbook additional (www.wilsontech.org/bookstore).

DH-C/222 6:30-10PM 42hrs 12 sessions

CABINETRY- INTRODUCTION
Are you interested in the professional cabinetry business or looking for a hands-on hobby? Get started as you learn to design, layout, assemble and install complete kitchens. Become familiar with the tools needed and how to use them. Learn professional techniques that will put you on the road to a lucrative profession. Class covers the basics of cabinet fabrication, face frames, style and rail construction along with box construction.

19SCON156A $489 TH 3/7/2019-6/13/2019
DH-D/Carp 6:30-9PM 42hrs 12 sessions

CERAMIC TILE BASICS
Learn how to successfully tile your foyer floor, shower surround or kitchen backsplash area. Learn the correct substrates for wet or dry wall or floor installations. Cut and drill holes in all types of ceramic and porcelain tiles and become familiar with adhesives and grouts for different applications.

DH-D/Carp 6:30-9PM 15hrs 5 sessions

CONSTRUCTION ESTIMATING & PROJECT MANAGEMENT
Acquire the necessary skills to begin working in this field as an estimator or a project manager. Topics include: Critical Path Management (CPM), estimating database development, job costing principles and estimating standards. In addition, learn estimating practices relating to drainage, sanitary, cut and fill, sewer and site work. Prereq: Blueprint reading and a strong basic math background. Textbook additional (www.wilsontech.org/bookstore).

DH-E/AdvArt 6:30-9:30PM 36hrs 12 sessions

HOME REMODELING
Learn basic residential construction and remodeling with emphasis on wall construction, framing, door and window installation, molding installations, sheetrocking and taping, metal framing, stairs, rafters, and roofing.

DH-D/Carp 6:30-10PM 42hrs 12 sessions

CONTINUING EDUCATION FOR LICENSED HOME INSPECTORS
Wilson Tech offers Continuing Education Credits for licensed Home Inspectors in the courses listed below. For full course descriptions visit our website at wilsontech.org/adults. Please call 631-667-6000 ext. 320 if you have a group of 10 or more interested in taking a class!

- Home Inspection-Building Science
- Personal Safety During Inspections
- Residential Building Foundations
- Roofs, Penetations and Supports
- Water, Moisture, Humidity, Grading and Site Drainage
- Wood Frame Residential Decks & Common Causes of Deck Failure
Programs to help you earn a certificate or license.

**AUTOCAD - BEGINNER**
Hands-on introduction to 2D AutoCAD drawing as well as the 3D capabilities of the architectural desktop add-on. Learn the beginning skills and commands to use AutoCAD, the most popular desktop computer-aided drawing software. AutoCAD may be used in both manufacturing and architectural environments on a professional level. One student to a computer. Optional lab time will be available one hour before each class so students can complete 3D drawings for their class project.

Programs to help you earn a certificate or license.
ELECTRICAL INSTALLATION I
Learn basic electrical theory, use of hand tools, materials, proper installation of switches, receptacles and lighting fixtures, special purpose receptacles and applications in order to apply for a job as an entry level electrical helper and/or apprentice. This course is structured as a combination lecture/shop class. Most classes will consist of a 30-40 minute lesson followed by hands-on shop work where you will practice the skills and theories taught. Students must purchase hand tools from a list provided by the instructor on the first night of class. Approx. $100. Textbook additional (www.wilsontech.org/bookstore).

DH-D/Elec 6:30-10PM 52hrs 15 sessions

19SELE112B $815 W 3/6/2019-6/19/2019  
DH-D/Elec 6:30-10PM 52hrs 15 sessions

ELECTRICAL INSTALLATION II
A continuation of Electrical Installation I with emphasis on commercial and industrial systems and problems. Students may purchase additional hand tools from a list provided by the instructor the first night of class (approx. $50). Prerequisite: Electrical Installation I. Textbook additional (www.wilsontech.org/bookstore).

DH-D/Elec 6:30-10PM 42hrs 12 sessions

ELECTRICAL MOTOR CONTROL
Theory and practical application, wiring diagrams for a wide variety of motor installations and controls. Gain a better understanding of drawing line diagrams and become proficient in reading and understanding the logic concepts behind these drawings. Gain the knowledge for different testing and troubleshooting techniques for any motor equipment. Two textbooks additional (www.wilsontech.org/bookstore).

19SELE114A $495 TH 3/7/2019-6/13/2019  
DH-D/Elec 6:30-10PM 42hrs 12 sessions

INDUSTRIAL ELECTRICITY
Start with a review of basic electricity, Ohm’s Law, wiring materials, raceways & boxes, switchboards, panelboards, motors, generators, air conditioning & refrigeration, fire pumps, and move into single phase concepts and residential services, branch circuits and feeders, and calculations. Also covered are conductors and overcurrent protection, wiring methods, transformers, special locations and three phase wiring systems. Knowledge of the National Electrical Code will be used in this course. Prerequisite: Electrical Installation I and II, or field experience. Textbook additional (www.wilsontech.org/bookstore).

19SELE105A $619 M 3/19/2019-6/18/2019  
DH-C/17 6-9PM 33hrs 11 sessions

MOTOR CONTROL - PROGRAMMABLE LOGIC CONTROLLERS (PLC) - ADVANCED
An advanced class for the experienced electrician who has knowledge of motor controls and Windows for PCs. Review timers, counters, assembling a PLC with switches, and lights, use of the programming software on a PC and learning to program a PLC. Ideal training for traffic controllers or maintenance electricians. Prerequisite: Electric Motor Control or relevant trade experience.

DH-C/10 6:30-10PM 42hrs 12 sessions

NATIONAL ELECTRIC CODE AND TEST PREPARATION
This course is a must for anyone who works in the electrical field and wants to prepare for the Electricians License Exam. Get up-to-date on the new requirements of the National Electric Code. Cover wiring methods, materials and calculations for residential, commercial, industrial, special occupancies and hazardous locations. Study the National Electrical Code including: electrical safety, fire prevention, and electrical codes. NOTE: Before taking the exam, students must have 7 years experience as an electrician. For information about the exam, call the Office of Consumer Affairs at 631-853-4600. Textbook additional (www.wilsontech.org/bookstore).

DH-C/26 6-9:30PM 42hrs 12 sessions

**AUTOMOTIVE TECHNICAL TRAINING**

Vehicles are far more sophisticated today than in previous decades and require technicians with more advanced technical training. Western Suffolk BOCES, accredited by the ASE Education Foundation, is equipped to teach you the skills that will help you advance in this field. Upon successful completion you will be prepared to sit for the corresponding certification exams which stress knowledge of job-related skills and lead to Automotive Service Excellence (ASE) certification. Learn the theory and skills to diagnose, service and repair cars, SUV’s and light duty trucks. You will use up-to-date electronic and hydraulic equipment to precisely diagnose today’s sophisticated vehicle. Prerequisite: High School diploma or equivalent and satisfactory score on a TABE exam and interview. Students must also attend a 4-hour safety orientation workshop. New students may begin on the first day of most modules.

PREPARE FOR FAA AIRFRAME & POWERPLANT AIRMEN CERTIFICATION

- Located at Republic Airport in Farmingdale
- Approved for ACCES-VR, VA
- FAA-certified instructors
- Financial aid/payment plans available to those who qualify
- DD214 Waivers are evaluated onsite for approved military training

AVIATION MAINTENANCE TECHNOLOGY

This FAA-approved program provides the hands-on experience to service, repair and overhaul reciprocating engines, turbine engines, aircraft components, powerplant control systems, instrumentation, and aircraft structure.

To prepare for both the Airframe and Powerplant certification, students must complete five semesters (total of 1,910 hours). Call 631-752-1957 for more information and to tour the facility.

Semesters begin Aug., Jan. and May. The program is offered at our Aviation Facility at Republic Airport in Farmingdale.

Tuition includes tool bag/tools, oral and practical testing for the Designated Mechanic’s Exam (DME). Students must supply standard work shirt or dark tee shirt, work pants and standard work boots to be worn in the hangar. FAA exams (3) extra: $150 each. Before being admitted into the AMT program, prospective students must take the TABE Survey (Test of Adult Basic Education), receive a successful score and meet with administration to determine eligibility into the program. Financial aid is available to those who qualify.

For Airframe & Powerplant Certification

19AAMT500A  Airframe I & II/Powerplant I & II/General $31210
REP/AMT 8:00am-2:30pm M-F Ongoing Enrollment 1910 hrs (5 semesters)

For Airframe Certification

19AAMT500C  Airframe I & II /General $18726
REP/AMT 8:00am-2:30pm M-F Ongoing Enrollment 1155 hrs (3 semesters)

For Powerplant Certification

19AAMT500B  Powerplant I & II/General $18726
REP/AMT 8:00am-2:30pm M-F Ongoing Enrollment 1155 hrs (3 semesters)

March 21, 6:30-8 PM at Republic Airport Campus

ATTENTION VETERANS

Some classes and programs at Western Suffolk BOCES may qualify for funding through the GI Bill. Call our veterans’ advisor at 631-261-3600, ext. 275 for the list of approved classes.
DIAGNOSTIC MEDICAL SONOGRAPHY
Learn the fascinating field of sonography including OB/GYN, abdomen, vascular, echocardiography, and breast ultrasound. This 24-month program integrates basic sciences, medical sciences and instruction in Diagnostic Sonography with supervised clinical experience in hospitals and doctors’ offices. Students gain valuable hands-on experience during clinical rotations. Successful completion of the program leads to a certificate that qualifies you to sit for the five registry examinations in Diagnostic Medical Sonography 60 days prior to graduation.

Accredited by the Commission of Accreditation of Allied Health Education Programs (www.caahep.org; 25400 US Highway 19 North, Suite 158, Clearwater, FL 33756; 727/210-2350) upon the recommendation of the Joint Review Committee on Education in Diagnostic Medical Sonography.

Prerequisites: High School diploma or equivalent: a minimum grade of C in college-level, credit-bearing courses in General Physics, Anatomy & Physiology I & II, Algebra, and English; and a satisfactory score on Pre-Entrance Exam. Courses begin in July.

Additional costs of approximately $4,000 for textbooks, uniforms, conference, liability insurance, CPR, physical exam and registry exam. Financial aid is available to those who qualify.

PRACTICAL NURSING
Learn the skills and knowledge necessary to be a valuable member of today’s health care team. The School of Practical Nursing helps prepare you for licensing as a practical nurse. In addition, for those planning to pursue further nursing education, Tech is affiliated with RN programs at SUNY Farmingdale, Adelphi, Molloy, NYIT and Helene Fuld College. The program is approved by the NYS Education Department. The low ratio of students to faculty allows many opportunities for individualized classroom instruction, as well as excellent clinical experience at hospitals and health care facilities.

Tuition includes stethoscope and surgical scissors. Additional costs for textbooks, uniforms, licensing fee, physical exam, liability insurance and CPR certification are required for entering program. Financial aid available to those who qualify. Prerequisites: High School diploma or equivalent plus satisfactory score on Pre-Entrance Exam. HEGIS code 5209.209

MEDICAL ASSISTING
Prepare to work in physicians’ offices, hospitals and clinics. Duties include running the front office, receptionist functions, bookkeeping, and filing. Assist the physician with examinations, treatments and medications; perform EKGs and simple laboratory procedures. Study topics including hematology, urinalysis, phlebotomy, basic blood banking, and routinely performed chemistry tests. Clinical internship will be provided in local medical offices and clinics. Those who successfully complete this program are eligible to sit for two national certification exams – Medical Assisting and Phlebotomy. Testing fees separate. Prerequisites: basic computer skills and High School Regents Diploma or successful score on TABE Test. Additional costs (approx. $550) for uniform, physical exam and textbooks (www.wilsontech.org/bookstore). Note: High School Regents Diploma or equivalent is required to sit for NCCT certification exams.

WILSON TECH SPRING 2019

SURGICAL TECHNOLOGY
Learn to work closely with surgeons, anesthesiologists and registered nurses to provide patient care throughout surgery. Study disease process, instrumentation, setting up an operating room and patient preparation. You will be assigned to a local health care facility to work under an experienced health care professional. This program helps prepare you for employment in operating rooms, surgical offices, delivery rooms, emergency departments, physician and dentist offices, central supply services, cardiac catheterization clinics, tissue banks and ambulatory surgical care sites. Advanced placement is available in the Practical Nursing program within one year of graduation. Accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org; 25-400 US Highway 19 North, Clearwater, FL 33756; 727-210-2350) upon the recommendation of the Accreditation Review Council on Education in Surgical Technology and Surgical Assisting. Additional costs for textbooks, malpractice insurance, uniform, physical exam, and CPR certification are required for entering program. Financial aid available to those who qualify. Prerequisites: High School diploma or equivalent plus satisfactory score on Pre-Entrance Exam.

19ASGT500B $17,850 M-F 4/29/2019-4/30/2020 NPT/204 9AM-2:30PM 1200hrs 265 sessions

RADIOLOGIC TECHNOLOGY
Western Suffolk BOCES is in the process of seeking accreditation for its program in Radiologic Technology. This program will be approved by the Joint Committee on Education in Radiologic Technology (JRCERT) and the New York State Department of Health. The educational program is 24 months in duration, and requires full time attendance between the hours of 8a-4p, Monday through Friday. The program may require occasional weekend assignments and operates throughout the summer months. The program of study consists of two components: a formal didactic classroom component and a clinical practicum in hospitals and imaging centers. Clinical rotations will take place at Northwell’s facilities, Brookhaven Memorial Hospital, the Northport VA Medical Center and imaging centers in Nassau and Suffolk counties - including Zwanger-Pesiri Radiology. All clinical sites will be fully approved by the JRCERT. The following are the minimum program entrance requirements:
* Graduation from an accredited high school or equivalent (GED/TASC).
* Minimum of an Associate Degree conferred within 5 years of admission to Radiologic Technology Program. Completion of college prerequisite courses must be documented with a grade of C or better in College Algebra, Anatomy & Physiology I & II, English Composition, Psychology, and Basic Physics.
* Satisfactory score on pre-entrance exam (50% or higher).
Please note that meeting the above minimum requirements does not guarantee acceptance into the program, as there are limited seats (24) per year. Contact the School of Radiologic Technology’s Program Director at (631) 261-3600 ext. 254 or email at lanetrel@wsboces.org for further information. Tuition: $14,999
Additional costs: books, supplies, uniform, physical exam, CPR, liability insurance, travel conference, licensing and registration fees, application fee and pre-entrance test fee. Minimum age for admission is 18 years old.
Those successfully completing this certificate program will be eligible to take the ARRT national certification examination and when passing that examination will be eligible to apply for New York State licensing as a licensed Radiologic Technologist. Applications are accepted beginning Fall 2018 for the class beginning July, 2019.

20ARAD500A $14,999 M-F 7/1/2019-6/25/2021 NPT 8AM-4PM 3060hrs 520 sessions
Prepare Now for the Pre-Entrance Exam!

All applicants to the Diagnostic Medical Sonography, Practical Nursing, Radiologic Technology, and Surgical Technology programs must achieve a satisfactory score on the Pre-Entrance Exam (also known as Test for Academic Skills) and have a high school diploma or equivalent. These four programs have substantial class work and homework that require students to be proficient readers with a wide vocabulary and to be competent math problem solvers. BOCES highly recommends that students take the Prep Class for Pre-Entrance Exams; however, those who have completed a recent academic program with strong grades may consider proceeding directly to the Pre-Entrance Exam. Most students find that the Prep Class for the Pre-Entrance Exam helps them prepare for the rigorous Pre-Entrance Exam, gain self-confidence, and solidify their interest in pursuing the academic work necessary to succeed in these programs.

Note: A successful score on the Pre-Entrance Exam is the first step in applying to these four programs but does not guarantee admission.

Prep Class for Pre-Entrance Exams: Practical Nursing, Surgical Technology; Radiologic Technology & Diagnostic Medical Sonography

BOCES statistics indicate that the passing rate on the Pre-Entrance Exam is higher for those who complete this Prep Class. To enter these four programs, you must satisfactorily pass the Pre-Entrance Exam. Take this Prep Course to help you prepare for your Pre-Entrance Exam. Work on reading comprehension, basic math skills, English grammar and usage and critical thinking. The pre-entrance exam has a science section, which is required for Sonography and Radiologic Technology applicants. This course incorporates critical thinking skills needed to successfully answer science questions. Science curriculum will not be covered. Textbook additional (www.wilsontech.org/bookstore).

Pre-Entrance Exams (TEAS) may be taken once a semester. Exam fee is $125.

The TEAS Pre-Entrance Exam is composed of the following areas: general math, science, reading comprehension, and English and language usage. If you have any questions about the Pre-Entrance Exam or you have a current IEP and are requesting testing modifications, call 631-261-3600, ext. 245.

While all prospective students take the same Pre-Entrance Exam, register with the course number of the program you hope to enter.

NURSE ASSISTING

Prepare to begin your nursing career as a nurse assistant. The program is approved by the NYS Education Department. Covers basic procedures in bedside nursing care, theory, medical ethics, and clinical supervision in a local health facility. Students who successfully complete this program will be eligible to take the Nurse Aide Evaluation Examination which qualifies students for a listing in the NYS registry. Requirements: a completed physical examination form by the first day of class, purchase of designated uniform, and fee of $115 payable to the NYS Commissioner of Health for the state examination. Prerequisite: High School Diploma or successful score on TABE. Call 631-667-6000 x327 for an appointment with a career counselor for assessment. Textbook additional (www.wilsontech.org/bookstore).

 DH=Dix Hills Campus (Buildings A, B, C, D, or E),   HN=Huntington Campus,   NPT=Northport Campus,   RP=Republic Campus
Esthetics, the field of skin care and make-up, is now a specialty requiring a separate NYS license in Esthetics. This 600-hour course will cover anatomy and physiology, bacteriology, sterilization, structure and function of the skin, facial procedures, use of various machines, waxing, basic make-up techniques, and business practices. 30-hour Laser Hair Removal certification included. Students will prepare for the State Board examination. Uniform ($50), State exam fee ($70) not included in tuition.

NOTE: Tuition includes a $100 non-refundable fee.

The Western Suffolk BOCES Cosmetology and Esthetics programs offer salon services by appointment! Call for an appointment for an array of hairstyling services, from a simple cut and shampoo to a full head of highlights, and esthetics services such as specialized facials. Students pursuing licenses are supervised by instructors and provide salon-quality services at dramatically reduced prices.
EKG / MONITOR TECHNICIAN
Satisfactory completion of this course will help prepare you to work as an entry level EKG or monitor technician in hospitals, clinics, health related facilities and doctors' offices. Learn to identify normal and pathologic heart rhythms and collect diagnostic quality recordings of the heart's electrical and mechanical activity. You will also learn to monitor a patient's cardiac function in a critical care or emergency room setting. Gain the knowledge and skills to assist doctors and nurses by recognizing and reporting changes in a patient’s heart function. The curriculum includes cardiac anatomy and physiology, 12 lead and rhythm strip analysis lead placement and 12 lead EKG. Rhythm strip practice will enhance learning and clinical skills! You must earn a final grade of 90% to receive a certificate of completion. Testing fee separate. High School Diploma or equivalent is required to sit for the NCCT exam.

CENTRAL SERVICE TECHNICIAN
Looking for a skilled, entry-level position in health care where you will be responsible for a variety of vital services in health facilities? Apply now to become a certified Central Service Processing Technician who processes and sterilizes surgical instruments in hospitals, surgical centers and other health facilities. The course will help prepare entry-level technicians and refresh current technicians who want to earn certification from the International Association of Healthcare Central Service Material Management (IAHCSMM). Scientific principles of processing, sterilization, storage, distribution and inventory control of medical and surgical instruments and equipment for the Operating Room, Emergency Room and other areas of the hospital or healthcare facility will be stressed. This program will cover the primary responsibilities of the technicians and provide the knowledge necessary to be successful in this important field. Study anatomy and physiology, microbiology, infection control, disinfection and sterilization procedures, surgical instrumentation, and packaging and management of patient care supplies and equipment.

The coursework incorporates classroom and laboratory learning activities and resources and will include a 400-hour Clinical Internship to be scheduled upon completion of 160 classroom hours. Upon successful completion of the course, students will be eligible to take the IAHCSMM certification examination for Certified Central Service Technician. Prerequisites: High School diploma or equivalent, completed physical examination and successful score on TABE Survey test. Additional costs: uniform approximately $100, certification exam $105. Textbook additional.

WILSON TECH SPRING 2019

LANDSCAPE DESIGN

Learn everything you need to know to tackle that not-so-great part of your yard. Topics will include site selection and preparation, developing your design, plant selection, installation and maintenance. Perfect for homeowners or landscapers expanding their skills. Students will be able to draw a landscape plan by the end of the class.

DH-E/AdvArt 7-10PM 30hrs 10 sessions

GAS BURNER SYSTEMS – INTRODUCTION

Learn to service gas systems. This introductory course will focus on the gas system, gas water heaters, pilots and millivolts, spark ignition and hot surface ignition. Reference materials provided.

19SHVC102A $609 Th 3/7/2019-6/13/2019
DH-D/D6 6:30-10PM 42hrs 12 sessions

OIL BURNER SERVICE I

Learn to install, troubleshoot, repair and service oil burners and tanks including fuel piping. Study basic electricity specific to oil heating, schematic wiring diagrams, and the test instruments used to diagnose and repair residential oil burners. Lecture/hands on. Textbook additional (www.wilsontech.org/bookstore).

19SHVC103A $609 Tu 3/5/2019-6/11/2019
DH-D/Plumb 6:30-10PM 42hrs 12 sessions

BOILER INSTALLATION

In this hands-on class you will learn complete installation techniques for hydronic residential heating systems. Practice proper soldering techniques as you install pipe A 1 and two-zone hot water boilers as well as other components for residential hot water heating systems. Prerequisite: Oil Burner Service II.

DH-D/HVC 6:30-10PM 35hrs 10 sessions

REFRIGERATION/AIR CONDITIONING I

Study basic refrigeration cycle, heat energy, system components, an introduction to basic electricity, schematic diagrams, and use of test instruments. Textbook and workbook additional (www.wilsontech.org/bookstore).

DH-D/HVC 6:30-10PM 42hrs 12 sessions

REFRIGERATION/AIR CONDITIONING II

In this lecture class (limited hands-on) learn commercial-systems controls, heat loads and piping, the fundamentals of air conditioning systems, heating and humidifying. Instruction in specialized classroom and shop. Prerequisite: Refrigeration/Air Conditioning - Introduction. Textbook additional (www.wilsontech.org/bookstore).

DH-D/HVC 6:30-10PM 42hrs 12 sessions

REFRIGERANT TRANSITION AND RECOVERY CERTIFICATION REVIEW AND EXAM

Includes six-hour review course and admission fee to the three-hour RTRC exam. Review basic concepts in refrigerant chemistry and oils and their applications, as well as ozone depletion, the Montreal Protocol, relevant legislation and regulations, recovery recycling and reclamation, storage, handling and transporting refrigerants.

19SHVC108A $325 Tu/Th 6/18/2019, 6/20/2019 & 6/25/2019 DH-D/HVC 6-9PM 9hrs 3 sessions

LANDSCAPE DESIGN

Learn everything you need to know to tackle that not-so-great part of your yard. Topics will include site selection and preparation, developing your design, plant selection, installation and maintenance. Perfect for homeowners or landscapers expanding their skills. Students will be able to draw a landscape plan by the end of the class.

DH-E/AdvArt 7-10PM 30hrs 10 sessions
Learn the skills you need to work in the recreational boating industry as a qualified marine technician who can service boats, boat engines and related systems as well as boat yard operations. Wilson Tech’s program addresses the rapid advances in marine propulsion technology that now demand a high level of competency and training. Those earning certificates from Wilson Tech will be well-prepared for employment opportunities in boat yards, marinas, and engine repair facilities. Class meets one night/week for theory and one night/week for laboratory work. No classes during school holidays.

The six modules in this course can be completed in nine months. Graduates can obtain valuable industry-recognized certificates that attest to their skills. The program will also help prepare you to take engine certification tests from Yamaha, Evinrude and/or Mercury. To enhance employment opportunities, successful graduates of the program will be well-positioned to seek additional certifications from the American Boat & Yacht Council or the National Marine Electronics Association. The instructor will provide information about the additional preparation required for these certifications.

A basic set of hand tools (likely found in most households) as well as multi-meter and basic diagnostic tools are the student's responsibility, approx. $2,500 for those with no toolbox. Tools can be purchased as needed based on supply list per module at www.wilsontech/marine.

20FMTS200A $2339 Coming Fall 2019 NPT/Rm 119 231hrs 66 sessions

**BASIC MARINA OPERATIONS - MODULE I**
You’ll be taught the proper blocking, storing and trailing of boats. Students will practice with powered industrial trucks at a local marina to learn how to move pallets using a forklift, to pick up boats with a boat handling forklift and to prepare to move very large boats with a travel or strap lift. Students who successfully complete this module will earn their Apprentice Boat Bottom Painting and Powered Industrial Truck certificates as well as OSHA Powered Truck Safety certification, all in-demand credentials for employment in the marine industry. Learn excellent customer service skills and how to be a service writer as you gain an overview of the marina as a business. (21hrs)

**ENGINE TECHNOLOGY - MODULE II**
This module covers the theory of two and four-stroke internal combustion engines for both outboard and inboard engines with modern computer engine controls. Cooling systems and variable valve timing systems will also be covered. (42hrs)

**MARINE WIRING & INSTALLATIONS - MODULE III**
Learn DC theory, wiring practices, and battery systems. Emphasis is on troubleshooting basic DC circuits. Learn to use ABYC (American Boat and Yacht Council) and NMEA (National Marine Electronic Association) standards. Gain an understanding of proper installation of electronics for navigation and communication systems. (42hrs)

**FUEL AND IGNITION SYSTEMS - MODULE IV**
Learn carburetor theory, fuel and fuel delivery technology, fuel pumps, lubrication, boat fuel systems, safety standards and recommended practices. Gain in-depth information on how modern ignitions systems work. Learn current electronic ignition theory and troubleshooting using state-of-the-art test equipment. (42hrs)

**ELECTRONIC FUEL INJECTION - MODULE V**
Gain a thorough understanding of computerized electronic and direct injection engine operating systems. Heavy emphasis will be placed on hands-on computer diagnostics. (42hrs)

**DRIVE SYSTEMS - MODULE VI**
Study all drive systems in the industry today. This module covers outboard lower units, stern drive, and inboard transmissions diagnosis and rebuilding including shimming procedures. (42hrs)

**BOATYARD OPERATIONS/INTERNSHIP**
Internships may be available for eligible students.
### ACOUSTIC GUITAR WORKSHOP
Looking for a relaxed environment to continue learning while you play? Hone your guitar skills with other like-minded people in a highly supportive workshop atmosphere. This class will focus on standard guitar repertoire, improvisation, reading, basic music theory and performing with others. All levels welcome!

**19SMUS117A $199 TH 3/7/2019-6/13/2019**
NPT/103 7-9:30PM 24 hrs 12 sessions

### GUITAR I - BEGINNER
The beginner will be introduced to the fundamentals of music, guitar music and tablature. Learn by practicing finger exercises and reading notes. Covers the most common "open" major chords and their progression. Study fingering techniques and strumming patterns. Learn how guitars are constructed by how to change and tune strings. First class includes skill and instrument assessment and may end early. Textbook additional (www.wilsontech.org/bookstore). Practice time included.

NPT/103 7-9:30PM 27.5hrs 11 sessions

### GUITAR II - INTERMEDIATE
Build on the skills gained in Guitar I and learn simple songs too. Continue to focus on tuning and proper technique while building on single note playing, learning more open chords from the major/minor key of C, playing chord progressions, reading sheet music and simple strumming. Practice time included. Textbook from Guitar I (www.wilsontech.org/bookstore).

**19SMUS102A $199 TH 3/7/2019-5/30/2019**
NPT/103 7-9:30PM 25hrs 10 sessions

### GUITAR IV (FRET-BOARD HARMONY)
Builds on the skills and training of Guitar I to III. Focus on ear development as well as harmonic and compensation tuning, understanding and exploring scales and chords through the fret-board analysis of the major and minor scale formulas, chord construction/function, other major and minor musical keys, chord progressions and reading sheet music. Continue with more vocal development to help improve your singing while playing melody. Expand your song repertoire with vocal accompaniment. Practice time included. Textbook from Guitar I. (www.wilsontech.org/bookstore).

NPT/103 7-9:30PM 25hrs 10 sessions

### LEAD GUITAR WORKSHOP
Learn to improvise and work with the pentatonic scales, blues scales, chromatic scales, major and minor modes and arpeggios. Opportunities to learn one-on-one and jam. Beginners welcome but some knowledge of basic guitar helpful. No prior knowledge of improvisation necessary. Open to both electric and acoustic players. Electric players are required to bring their own small practice amp to class.

DH-C/27 8-10PM 24 hrs 12 sessions

### MUSIC THEORY
Delve into the inner workings of music. Learn how music is created and structured. Whether you read notes or play by ear, this introduction to music theory will expand your music skills. We will cover major and minor scales, the circle of fifths, key signatures, chord theory, basic ear training, intervals, chords of the key and modal concepts.

**19SMUS206A $199 TH 3/7/2019-6/13/2019**
DH-C/27 6-8PM 24 hrs 12 sessions

### SINGING FOR NON-SINGERS
People who love to sing but have had little or no vocal training will have fun in this class! Learn to express yourself with your voice as you start to develop the basics of vocal technique and practice singing from the diaphragm. Learn breath control, articulation, pitch, basic ear training and phrasing. Focus on using your voice as an expressive instrument through learning repertoire, performing for the class and singing harmony. Please bring sheet music with you for one or two songs of your choice.

DH-C/26 6-8PM 24 hrs 12 sessions
ADOBE LIGHTROOM CLASSIC & CLOUD FOR BEGINNERS
Learn how to use Lightroom to import and organize your photos. Edit and enhance them and develop a workflow for your photography.

WELDING

COMPREHENSIVE WELDING-BASIC
Are you interested in welding, but not sure where to begin? If you’ve never welded before and are interested in this field, this comprehensive class is the perfect place to start! Become familiar through hands-on experience with Arc, Tig, Mig Oxy Fuel, and plasma cutting. Guided by our master instructors you will gain a better understanding of the various welding techniques and decide which direction is best for you. This class is for a true beginner who has not welded before. You must have a welding helmet, jacket and proper footwear for the first class. Complete list online at www.wilsontech.org.

DH-C/Weld 6:30-10PM 21hrs 6 sessions

ELECTRICAL ARC WELDING I
Learn the practical application of weldments in various positions, theories of electricity, welding circuits, current controls, and types of electrodes. Students must provide gloves, goggles/helmet.

DH-C/Weld 6:30-10PM 42hrs 12 sessions

ELECTRICAL ARC WELDING II
A continuation of Electrical Arc Welding I. Students provide gloves, goggles and helmet. This class fills up quickly - register early to ensure a seat in this class.

DH-C/Weld 6:30-10PM 42hrs 12 sessions

FABRICATION TECHNIQUES
Do you have a project you want to build or repair? Come learn basic blueprints, proper design and layout so you can fabricate such projects as a utility trailer, wood burning stove, or hydraulic wood-splitters. Gain basic knowledge of proper equipment including hydraulic punch press and shears, drill press, lathe, milling machine, and welding equipment such as MIG, TIG and oxy-fuel cutting. Prerequisite: general knowledge of welding and application of various hand tools, or Electrical Arc I. Students must provide basic hand tools and materials. Cost of materials varies based on project. Tool list will be distributed at first class session.

DH-C/Weld 6:30-10PM 42hrs 12 sessions

HELIARC (TIG) I
Learn theory and practical applications of heliarc welding and positions and properties of various metals. Students must provide gloves, goggles/helmet.

19SWEL108A $929 TH 3/7/2019-6/13/2019
DH-C/Weld 6:30-10PM 42hrs 12 sessions

HELIARC (TIG) II
Continue where Tig I left off. Establish an electric arc and properly deposit tact welds using GTAW process. Demonstrate an ability to weld a root pass with the proper melt through on inside of pipe using GTAW process. Practice all of these methods on 2G, 5G, and 6G positions.

DH-C/Weld 6:30-10PM 42hrs 12 sessions

OXYACETYLENE WELDING/MIG WELDING
Develop skill and knowledge in using oxyacetylene welding and brazing equipment. The course covers welding safety, brazing, and cutting. Students will develop skills and knowledge in the gas metal arc (MIG) process. Safety, proper machine use, welding using solid and flux cored wires. Students must purchase their own equipment prior to the first night of class. (www.wilsontech.org/supplies) (Approx. $150)

DH-C/Weld 6:30-10PM 42hrs 12 sessions

WELDING CERTIFICATION PREPARATION
This class is for experienced welders only. Prepare for the ASME Section IX Qualification Standard 6G pipe, 3G vertical and 4G overhead. After an evaluation period, you will either practice for the examination or pursue a course of remediation as prescribed by the evaluator/instructor. Prerequisite: Arc Welding I & II or a minimum of 5 years welding experience. Registration for Certification exam is separate and must be done in person at the Registration office. Certification exams approx. $150 - $200 depending on exam.

WELDING EXAMS
Western Suffolk BOCES offers four welding exams. Call to register separately for the specific exam. All exams are held Tuesday, 6/4/19, 6-10P at DH-C/Weld.

Plate Tests
19SWEL107A 3G Vertical Up $150
19SWEL107B 4G Overhead $150

Pipe Tests
19SWEL107C 6G Tig Root $200
19SWEL107D 6G (60/10) $200

WELDING CERTIFICATION EXAM ONLY
If you are not registered in the Welding Certification Preparation course, the tuition includes materials fee and ASME exam fee. Call to register separately for the specific exam. All exams are held Tuesday, 5/28/19, 6 - 10 p.m. at DH-C/Weld.

19SWEL207A Plate Test–3G Vertical Up $340
19SWEL207B Plate Test–4G Overhead $340
19SWEL207C Pipe Test–6G Tig Root $390
19SWEL207D Pipe Test–6G (60/10) $390

4 EASY WAYS TO REGISTER!
Registration ends one week before your class begins. Register early, classes fill quickly! Classes are filled on a “first come, first served basis.” As classes fill, every effort is made to schedule additional classes to serve your needs. Full tuition must be received before you can enroll in a class. BOCES reserves the right to change locations, times or dates where necessary, or to cancel classes. Make your check or money order payable to: Western Suffolk BOCES.

Unless notified otherwise, you can safely assume your registration is confirmed.

ONLINE — EASIEST!
Follow the instructions at www.wilsontech.org/express
Registration accepted via a secure server.

- Internet: wilsontech.org, facebook.com/wilsontechforadults, wsboces.org
- TV: News 12 FIOS1
- Phone: Call 631-667-6000, x888 for recorded message.

Frequently asked questions

What if I do not have a high school diploma?

A high school diploma is not required for most of our evening classes. Western Suffolk BOCES also offers a variety of no-cost ways to complete your high school education. To work toward your High School Equivalency Diploma (TASC) or EDP, see page 38 or call our Career Center at 631-667-6000, x327.

How can I get to Wilson Tech?

Wilson Tech campuses are centrally located and easily accessible by major roadways or public transportation. Maps are on our website, www.wilsontech.org/sites.

Public transportation options to Wilson Tech/ DIX Hills campus on weekdays, 8am–3pm:
- From S. Huntington & Dix Hills: S29 to Rt. 231 at Lake Ave. Connect with free BOCES shuttle.
- From Huntington/Huntington Sta.: S1, H9A or H9B to Walt Whitman Mall. Connect with free BOCES shuttle.
- From Northport & Greenlawn: H4S to Walt Whitman Mall. Connect with free BOCES shuttle.
- From Dix Hills & Wheatley Heights: S23 to Wyandanch train station. Connect with free BOCES shuttle.
- From Amityville, Copiague, & Lindenhurst: S33 to Wyandanch train station. Connect with free BOCES shuttle.

For more information about bus routes, times and shuttle locations, visit or call the Career Center at Wilson Tech, 631-667-6000, x327.

Can I receive tax incentives for BOCES courses?

The Taxpayer Relief Act of 1997 created the Lifetime Learning Credit, which is a tax incentive to help you offset the cost of your continuing education course work. A family can claim on their tax return a credit equal to 20% of $5,000 of educational expenses, so the maximum benefit is $1,000 for each tax year. For further information, contact your tax advisor.

Are there any additional costs?

In some instances students are required to purchase textbooks, personal protective equipment or personal tools, miscellaneous supplies or ingredients. The course descriptions in this catalog will indicate any additional costs or requirements.

Will I receive a certificate?

Yes, you will! Certificates of completion are issued at the last class at no cost to all career & technical education students who have successfully completed a course. To be eligible for a certificate, you must attend 80% of the class sessions (unless otherwise stipulated), and complete all other course requirements with a grade of 80% or above and have paid your tuition in full. Some programs have course-specific attendance requirements.

How do I order a transcript?

There is a $5 fee for duplicate copies of certificates and transcripts. To order, go to www.wilsontech.org/transcript.

Do Tech courses qualify for veteran’s benefits?

Yes, veterans may qualify for complimentary GI Bill® training at Wilson Technological Center through the U.S. Department of Veteran Affairs. For part-time programs contact your local Veterans’ representative or call 631-667-6000, x353 to speak with our veterans’ advisor. For full-time programs call 631-261-3600, x275. More information about VA education benefits at www.benefits.va.gov/gibill

What if I have a special need?

Prior to registration contact the Career Center at 631-667-6000, x152 so that our staff can make an effort to assist you with any necessary arrangements. All our facilities are wheelchair accessible. Please see wsboces.org for forms and specific guidelines for accommodations.

Does Tech offer gift certificates?

We will gladly issue a gift certificate in any denomination to the person of your choice. To order, call 631-667-6000 ext. 320 with credit card information or send money order in the amount desired to: Office of Continuing Education, Western Suffolk BOCES, 17 Westminster Ave., Dix Hills, NY 11746
Federal Financial Aid
https://fafsa.ed.gov/School Code: 010147

Federal Financial Aid
Available to those who qualify in these programs only:
• Aviation Maintenance Technology
• Automotive Technical Training
• Esthetics
• Cosmetology
• Diagnostic Medical Sonography
• Practical Nursing
• Surgical Technology

Eligibility Requirements
To receive federal financial aid, you must:
• Be a US citizen or eligible non-citizen
• Be enrolled as a regular student in an eligible program (listed above) at BOCES
• Be a high school graduate, or have a recognized GED/TASC
• For grants, be a student who has not yet earned a bachelor’s degree
• Not be in default on previous student loans or owe a refund on previous grants
• Make satisfactory academic progress as defined by BOCES
• Be registered for Selective Service if male and 18 years or older

Determining Financial Need
Generally, financial aid is awarded on the basis of financial need. Complete the FAFSA, a Free Application for Federal Student Aid at https://fafsa.ed.gov. The government looks at your income, dependents and assets and calculates how much you and your family can be expected to contribute towards education. Financial need is the cost of education less the amount you can contribute.

The FAFSA determines eligibility for Federal Pell Grants and Federal Student Loans.
